SAP HCM – S/4HANA End-to-End

Complete Professional Training Syllabus

Ambattur, Chennai

Course Objective

A comprehensive end-to-end SAP HCM for S/4HANA curriculum covering enterprise structure, Personnel Administration, Organizational Management, Time Management, Payroll, Personnel Development, ESS/MSS, Fiori, reporting/analytics, integrations and real-time implementation/support. The syllabus also includes SAP SuccessFactors Employee Central and Employee Central Payroll integration because modern SAP HCM landscapes commonly combine Employee Central with S/4HANA or Employee Central Payroll.

SAP's current HCM for S/4HANA learning content covers personnel administration, organizational structures, time management, payroll, personnel development, self-services, analytics and additional HCM components. SAP also documents Employee Central integration with S/4HANA and hybrid scenarios where Employee Central is the system of record while S/4HANA retains payroll or time processes. ■cite■turn0search9■turn0search3■

1. SAP HCM / S/4HANA Overview

- Human Capital Management fundamentals
- SAP HCM for S/4HANA architecture
- Core HCM components
- Personnel Administration (PA)
- Organizational Management (OM)
- Time Management (PT)
- Payroll (PY)
- Personnel Development (PD)
- ESS/MSS and Fiori
- HCM integration landscape
- On-premise/private-cloud deployment considerations

2. Enterprise Structure

- Company and company code
- Personnel area
- Personnel subarea
- Employee group
- Employee subgroup
- Payroll area
- Organizational assignment
- Enterprise and personnel structure relationships
- Feature concepts
- Configuration and real-time examples

3. Personnel Administration – Master Data

- Employee master data
- Infotypes and subtypes
- Personnel number
- Actions and reasons
- Hiring
- Organizational reassignment
- Promotion
- Transfer
- Termination
- Rehire
- Concurrent employment overview
- Mass maintenance
- PA30/PA40 concepts
- Personnel administration reporting

4. Key HR Infotypes

- 0000 Actions
- 0001 Organizational Assignment
- 0002 Personal Data
- 0006 Addresses
- 0007 Planned Working Time
- 0008 Basic Pay
- 0009 Bank Details
- 0014 Recurring Payments/Deductions
- 0015 Additional Payments
- 0041 Date Specifications
- 0105 Communication
- Relevant payroll/time infotypes
- Infotype integration and validation

5. Organizational Management (OM)

- Objects: O, S, C, P, K
- Relationships
- Organizational units
- Positions
- Jobs
- Persons
- Cost centers
- Organizational structures
- Evaluation paths
- Structural authorizations overview
- Integration with Personnel Administration
- OM reporting

6. Organization & Staffing

- Create organizational units
- Create positions
- Assign jobs
- Staff positions
- Vacancies
- Position relationships
- Manager/subordinate structures
- Org-unit hierarchies
- Organizational reassignment
- Integration with workflows and Fiori

7. Personnel Actions & Business Processes

- Hire employee
- Rehire employee
- Transfer employee
- Promotion
- Change organizational assignment
- Change working time
- Salary change
- Termination
- Retirement
- Global transfer overview
- Action reasons and workflow
- End-to-end personnel action testing

8. Time Management Fundamentals

- Time recording concepts
- Planned working time
- Work schedules
- Daily work schedules
- Period work schedules
- Holiday calendars
- Public holiday classes
- Day types
- Break schedules
- Time recording profiles
- Part-time employees
- Time data administration

9. Attendance, Absence & Quotas

- Attendance types
- Absence types
- Counting rules
- Deduction rules
- Absence quotas
- Quota generation
- Quota deduction
- Carry-forward
- Accrual concepts
- Time administrators
- Employee self-service time requests

- Time data troubleshooting

10. Time Evaluation

- Time evaluation architecture
- Time evaluation driver
- Time evaluation schemas
- Personnel calculation rules
- Time types and time wage types
- Overtime processing
- Premiums
- Night/holiday/weekend rules
- Time balances
- Time evaluation logs
- Integration with payroll

11. Payroll Fundamentals

- Payroll architecture
- Payroll areas
- Payroll periods
- Payroll control record
- Payroll driver
- Payroll schemas
- Personnel calculation rules
- Payroll processing sequence
- Payroll simulation
- Payroll correction runs
- Payroll log analysis

12. Payroll Configuration

- Wage types
- Primary and secondary wage types
- Wage type characteristics
- Basic pay
- Recurring payments
- Additional payments
- Deductions
- Benefits-related payroll inputs
- Payroll constants
- Processing classes
- Cumulations
- Evaluation classes

- Payroll rules

13. Payroll Processing – End-to-End

- Payroll control record
- Release payroll
- Payroll driver execution
- Data selection
- Payroll calculation
- Gross-to-net processing
- Retroactive accounting
- Off-cycle payroll
- Correction payroll
- Payroll simulation
- Payroll completion
- Payroll posting
- Payroll results verification

14. Retroactive Accounting & Payroll Corrections

- Retroactive payroll triggers
- Master-data changes
- Retro calculation
- Forced retro
- Payroll correction scenarios
- Payroll result comparison
- Error analysis
- Payroll recalculation
- Backdated changes
- Period locking and correction procedures

15. Payroll Posting to Accounting

- Payroll-to-FI integration
- Symbolic accounts
- Wage type to account mapping
- Posting characteristics
- Posting run
- Posting document creation
- Simulation
- Error correction
- Reposting concepts
- Integration with S/4HANA Finance
- Reconciliation and audit

16. Payroll Schemas & PCR

- Schema architecture
- Operations
- Personnel calculation rules
- Decision trees
- Time wage type processing
- Gross calculation
- Net calculation
- Deductions
- Absence/payroll integration
- Custom PCR design
- Debugging payroll schemas

17. Statutory / Localization Payroll Overview

- Country-specific payroll architecture
- Statutory deductions
- Tax calculation concepts
- Social insurance concepts
- Country-specific wage types
- Compliance reporting
- Localization strategy
- India payroll concepts overview
- Configuration versus statutory customization

18. Personnel Development

- Qualifications
- Requirements
- Profiles
- Career planning
- Appraisals/performance concepts
- Training and development overview
- Succession planning overview
- Integration with SuccessFactors
- Employee development reporting

19. ESS / MSS & Fiori

- Employee Self-Service
- Manager Self-Service
- Leave requests
- Time entry

- Personal data maintenance
- Payroll information
- Manager approvals
- Fiori Launchpad overview
- Business roles/catalogs overview
- Workflow and authorization considerations

20. HCM Workflows

- Workflow fundamentals
- Event linkage
- Workflow templates
- Approval processes
- Personnel action workflow
- Leave approval
- Manager approvals
- Agent determination
- Workflow monitoring
- Workflow troubleshooting

21. HCM Reporting & Analytics

- Standard HCM reports
- Logical databases overview
- Ad hoc reporting concepts
- Query/reporting tools
- Payroll reporting
- Time reporting
- Headcount analytics
- Organizational analytics
- Fiori analytical apps
- Data extraction and audit reports

22. HCM Authorizations & Security

- HCM authorization concepts
- P_ORGIN
- P_ORGXX
- P_PERNR
- Structural authorization overview
- Role design
- Organizational-level security
- User administration
- ESS/MSS authorization

- Fiori security
- Security troubleshooting

23. Integration with S/4HANA Finance & Controlling

- Payroll posting to Finance
- Cost center integration
- Organizational assignment
- Employee cost allocation
- Payroll posting documents
- Reconciliation
- Period-end processing
- FI/CO integration troubleshooting

24. Integration with SAP SuccessFactors Employee Central

- Employee Central overview
- Core HR as system of record
- Employee master replication
- Organizational object replication
- Employee data replication
- Time data replication
- Point-to-point integration
- SAP Cloud Integration overview
- Core Hybrid HCM
- Side-by-side HCM
- Data migration to Employee Central
- Integration monitoring and error handling

25. Employee Central Payroll (ECP)

- ECP architecture
- Employee Central to Payroll integration
- Payroll roles and processes
- Employee data replication
- Time data integration
- Payroll processing
- Payroll Control Center overview
- Payroll monitoring
- Payroll posting
- ECP and S/4HANA Finance integration

26. HCM Integration & Interfaces

- IDoc concepts

- RFC integration
- APIs and web services
- OData overview
- SAP Cloud Integration
- Middleware concepts
- Employee data interfaces
- Time interfaces
- Payroll interfaces
- Interface monitoring
- Error handling and reprocessing

27. Migration & Data Management

- Legacy HCM data migration
- Employee master migration
- Organizational data migration
- Payroll history considerations
- Data validation
- Data cleansing
- Cutover strategy
- Employee Central migration overview
- Reconciliation
- Post-migration support

28. S/4HANA HCM Configuration / IMG

- Enterprise structure configuration
- Personnel administration
- Organizational management
- Time management
- Payroll configuration
- Wage types
- Payroll schemas and PCR
- Posting to accounting
- Personnel development
- ESS/MSS
- Workflow
- Integration settings
- Testing and transport management

29. Production Support & Troubleshooting

- Employee master data errors
- Incorrect organizational assignment

- Infotype issues
- Time evaluation errors
- Quota errors
- Payroll errors
- Retro calculation issues
- Payroll posting errors
- Workflow failures
- Fiori access issues
- Integration/replication failures
- Root-cause analysis and incident documentation

30. Real-Time End-to-End Projects

- Project 1: Enterprise structure and employee master implementation
- Project 2: Hire → organizational assignment → basic pay → time setup
- Project 3: Attendance/absence → quota → time evaluation
- Project 4: Complete monthly payroll run
- Project 5: Retroactive payroll and correction scenario
- Project 6: Payroll posting to S/4HANA Finance
- Project 7: Employee Central → S/4HANA employee replication
- Project 8: Employee Central → Employee Central Payroll time/payroll integration
- Project 9: ESS/MSS/Fiori HR self-service scenario
- Project 10: Complete HCM implementation + production support case

31. Interview & Certification Preparation

- HCM architecture questions
- PA/OM configuration scenarios
- Time Management questions
- Payroll configuration and schema questions
- PCR and wage type scenarios
- FI/CO integration questions
- SuccessFactors integration scenarios
- ECP questions
- Production support cases
- Real-time implementation case studies
- Mock interviews and practical assessment

Recommended Training Roadmap

Phase	Coverage	Outcome
1	HCM Foundation	Understand S/4HANA HCM architecture and enterprise structure
2	PA & OM	Configure employee master and organizational structures
3	Time Management	Configure work schedules, absences, quotas and time evaluation
4	Payroll	Configure wage types, schemas, PCRs and payroll processing
5	Integration	FI/CO, SuccessFactors EC, ECP and interfaces
6	ESS/MSS & Fiori	Implement employee/manager self-services and workflows
7	Implementation	Testing, migration, cutover and go-live
8	Support & Projects	Troubleshooting, E2E projects and interview preparation

SAP Reference Alignment

SAP's current HCM for S/4HANA learning journey covers master data, organizational structures, personnel administration, time management, payroll, personnel development, self-services, analytics and SuccessFactors. SAP also documents current Employee Central integration with S/4HANA, including employee master and organizational-object replication, time-data replication and Core Hybrid HCM scenarios. ■cite■turn0search9■turn0search3■turn0search7■
