SAP S/4HANA – PAYROLL

Complete End-to-End Professional Training Syllabus

Ambattur, Chennai

Course Objective

A comprehensive end-to-end SAP Payroll curriculum for HCM for SAP S/4HANA, covering payroll fundamentals, employee master data, payroll areas and control records, wage types, schemas, Personnel Calculation Rules (PCR), valuation, time wage types, factoring, absence valuation, retroactive accounting, averages, deductions, statutory processing, payroll posting to Finance, bank transfer, reporting, Payroll Control Center concepts, security, troubleshooting, implementation and real-time projects.

SAP's current S/4HANA Payroll learning path covers payroll basics, PCRs, payroll initiation, wage type valuation, absence valuation, time wage type selection, factoring, cumulation wage types, retroactive accounting and average processing. SAP also documents the end-to-end payroll run as release, start, check, exit and subsequent activities such as payslips, accounting and payments. ■cite■turn0search6■turn0search1■

1. SAP Payroll & S/4HANA Overview

- SAP HCM Payroll fundamentals
- Payroll in S/4HANA architecture
- Payroll process and business purpose
- Gross-to-net concept
- Payroll inputs and outputs
- Payroll master data dependencies
- Payroll integration with Time Management
- Payroll integration with Finance/Controlling
- Payroll consultant responsibilities

2. Payroll Organizational Structure

- Company code
- Personnel area
- Personnel subarea
- Employee group/subgroup
- Payroll area
- Payroll period
- Period parameter
- Date modifier
- Payroll calendar
- Assignment of employees to payroll areas
- Organizational design best practices

3. Payroll-Relevant Employee Master Data

- Infotypes relevant to payroll
- 0000 Actions
- 0001 Organizational Assignment
- 0007 Planned Working Time
- 0008 Basic Pay
- 0009 Bank Details
- 0014 Recurring Payments/Deductions
- 0015 Additional Payments
- 0041 Date Specifications
- 0057 Membership fees overview
- Time and absence infotypes
- Master-data validation before payroll

4. Payroll Control Record

- Purpose of control record

- PA03 administration
- Payroll area status
- Release payroll
- Correction phase
- Exit payroll
- Period management
- Locking/unlocking master data
- Payroll calendar and period control
- Troubleshooting control-record issues

5. Payroll Processing – End-to-End

- Payroll simulation
- Release Payroll
- Start Payroll
- Payroll log
- Employee processing
- Gross calculation
- Net calculation
- Payroll check
- Corrections
- Exit Payroll
- Remuneration statement
- Payroll posting
- Bank transfer
- Period-end activities

6. Wage Types – Foundation

- Wage type concept
- Primary wage types
- Secondary wage types
- Dialog wage types
- Time wage types
- Technical wage types
- Processing classes
- Cumulation classes
- Evaluation classes
- Wage type validity
- RTE/NUM/AMT fields
- Wage type documentation

7. Wage Type Configuration

- Wage type creation
- Copying standard wage types
- Wage type characteristics
- Permissibility by employee grouping
- Indirect valuation
- Direct valuation
- Default values
- Recurring and additional payments
- Deductions
- Wage type testing
- Wage type reporting

8. Personnel Calculation Rules (PCR)

- PCR fundamentals
- Operations and operands
- Decision trees
- Conditions
- Wage type processing
- Time data processing
- Custom PCR design
- PCR documentation
- Copying standard PCRs
- Testing PCRs
- Debugging PCRs
- PCR transport

9. Payroll Schemas

- Payroll schema architecture
- Main schemas and subschemas
- Functions
- Operations
- COPY function
- Schema editor
- Standard versus customer schemas
- Custom schema creation
- Schema modification methodology
- Schema testing
- Schema debugging
- Schema transport

10. Payroll Initialization & Master Data Processing

- Payroll initialization
- Reading organizational assignment
- Reading basic pay
- Reading time data
- Reading previous payroll results
- Master-data completeness checks
- WPBP processing
- Employee selection
- Payroll driver concepts

11. Basic Pay & Remuneration

- Basic salary
- Pay scale concepts
- Salary changes
- Partial-period changes
- Additional payments
- Recurring payments
- Bonuses
- Allowances
- Overtime payments
- Salary adjustments
- Period splitting

12. Wage Type Valuation

- Direct valuation
- Indirect valuation
- Constant valuation
- Pay-scale valuation
- Average valuation overview
- Wage type rates
- Rate and amount calculation
- Valuation bases
- Processing classes
- Custom valuation requirements

13. Time Wage Type Selection

- Time Management integration
- Time wage types
- Attendance and absence inputs
- Overtime
- Premiums

- Night shift
- Holiday/weekend premiums
- Time wage type selection rules
- T510S/time wage type concepts
- Troubleshooting time-to-payroll transfer

14. Absence Valuation

- Absence valuation concepts
- Paid/unpaid absence
- Absence valuation rules
- Counting and valuation
- Partial-day absence
- Average calculation
- Time evaluation integration
- Absence wage types
- Payroll impact
- Troubleshooting absence valuation

15. Payroll Factoring

- Factoring concept
- Partial-period processing
- Start/end employment during period
- Organizational changes
- Basic pay factoring
- Absence factoring
- Deduction factoring
- WPBP splits
- PCR/schema processing
- Factoring troubleshooting

16. Cumulation & Evaluation Wage Types

- Cumulation wage types
- Technical wage types
- Gross bases
- Tax bases
- Contribution bases
- Reporting wage types
- Evaluation classes
- Cumulation classes
- Year-to-date processing
- Payroll result analysis

17. Statutory & Voluntary Deductions

- Tax deductions concepts
- Social insurance concepts
- Pension/provident fund concepts
- Loans and advances
- Benefits deductions
- Garnishments overview
- Voluntary deductions
- Country-specific payroll processing
- Statutory wage types
- Compliance considerations

18. Retroactive Accounting

- Retroactive accounting concept
- Triggers for retro
- Backdated master-data changes
- Backdated wage-type changes
- Retro periods
- Previous payroll results
- Difference calculation
- Retro wage types
- Forced retro
- Payroll correction
- Retro troubleshooting

19. Average Processing

- Average calculation concept
- Average bases
- Historical payroll values
- Average wage types
- Absence valuation using averages
- Contractual averages
- Statutory averages
- Configuration and testing

20. Off-Cycle Payroll

- Off-cycle payroll concepts
- Bonus payments
- Correction payroll
- Advance payments

- Manual payments
- Payroll reasons
- Off-cycle processing controls
- Reconciliation

21. Payroll Results & Analysis

- Payroll result storage
- Display payroll results
- Payroll log
- Payroll account
- Remuneration statement
- Wage type reporter
- Payroll journal
- Result tables overview
- Technical payroll result analysis
- Error analysis

22. Payroll Posting to S/4HANA Finance

- Payroll-to-FI integration
- Symbolic accounts
- Wage type to account assignment
- Posting characteristics
- Posting simulation
- Posting run
- Posting document creation
- Cost center assignment
- G/L reconciliation
- Posting error correction
- Period-end reconciliation

23. Bank Transfer & Payments

- Net payment processing
- Bank transfer concepts
- Payment wage types
- Employee bank details
- Payment medium overview
- Bank file generation
- Payment validation
- Payment reconciliation
- Integration with Finance

24. Payroll Control Center (PCC) Overview

- Payroll Control Center concepts
- Payroll process management
- Alerts and monitoring
- Payroll process configuration overview
- Payroll process types
- Validation rules
- Exception handling
- Process monitoring
- Manager/processor roles
- Productive payroll governance

25. Payroll Reporting & Analytics

- Standard payroll reports
- Payroll account
- Remuneration statement
- Wage Type Reporter
- Payroll journal
- Headcount/payroll cost reporting
- Cost-center reporting
- Statutory reports
- Fiori analytical apps
- Payroll reconciliation reports

26. Payroll Security & Authorizations

- Payroll authorization concepts
- P_ORGIN/P_ORGXX overview
- Payroll-area authorization
- Personnel-number restrictions
- Sensitive payroll data
- Role design
- Segregation of duties
- Privileged payroll access
- Audit requirements
- Security troubleshooting

27. Country Payroll & Localization – India Focus

- India payroll overview
- Basic pay and allowances
- Provident Fund overview

- ESI overview
- Professional Tax overview
- Income-tax/TDS concepts
- Statutory deductions
- Form 16/annual tax reporting concepts
- India-specific wage types
- Localization testing and compliance

28. Payroll Integration

- PA-PY integration
- PT-PY integration
- MM/employee benefits overview
- FI/CO posting
- SuccessFactors Employee Central integration overview
- Employee Central Payroll overview
- SAP Cloud Integration overview
- Interfaces and replication
- Integration monitoring
- Error reprocessing

29. Payroll Configuration / IMG Curriculum

- Payroll area configuration
- Period parameters
- Control records
- Wage type configuration
- Wage type valuation
- Processing classes
- Cumulation/evaluation classes
- PCR configuration
- Schema configuration
- Time wage type selection
- Absence valuation
- Factoring
- Retroactive accounting
- Posting to accounting
- Bank transfer
- Payroll reports
- Testing and transport

30. Payroll Testing & Implementation Methodology

- Business requirement gathering

- Payroll blueprint
- Country/localization analysis
- Master-data preparation
- Unit testing
- Parallel payroll testing
- Integration testing
- Regression testing
- User acceptance testing
- Payroll reconciliation
- Cutover planning
- Go-live checklist
- Hypercare support

31. Production Support & Troubleshooting

- Payroll not released
- Employee rejected in payroll
- Incorrect gross pay
- Incorrect net pay
- Wrong wage type
- PCR error
- Schema error
- Retro calculation issue
- Absence valuation issue
- Time wage type issue
- Payroll posting error
- Bank transfer error
- Payroll result mismatch
- Performance issues
- Root-cause analysis and incident documentation

32. Real-Time End-to-End Payroll Projects

- Project 1: Employee master → basic pay → payroll area → payroll run
- Project 2: Monthly gross-to-net payroll
- Project 3: Overtime/time wage type to payroll
- Project 4: Absence valuation and payroll impact
- Project 5: Salary revision with retroactive accounting
- Project 6: Bonus/off-cycle payroll
- Project 7: Payroll posting to S/4HANA Finance
- Project 8: India statutory payroll scenario
- Project 9: Employee Central/ECP integration overview

- Project 10: Complete payroll implementation + production-support case

33. Interview & Certification Preparation

- Payroll fundamentals
- Wage type questions
- PCR scenarios
- Schema questions
- Factoring and retro questions
- Time integration questions
- Payroll posting questions
- PCC questions
- India payroll scenarios
- Production-support cases
- Real-time implementation discussion
- Mock interviews and practical assessment

Recommended Training Roadmap

Phase	Coverage	Outcome
1	Payroll Foundation	Understand payroll architecture, organizational structure and master data
2	Wage Types & PCR	Configure wage types, valuation and calculation rules
3	Schemas & Processing	Build/adjust schemas and execute payroll
4	Time & Retro	Integrate time, absence, factoring and retro accounting
5	Finance & Payments	Post payroll to FI/CO and process payments
6	PCC & Analytics	Monitor payroll, exceptions and reporting
7	Implementation	Testing, cutover, go-live and localization
8	Projects & Support	E2E projects, troubleshooting and interview preparation

SAP Reference Alignment

SAP's current Payroll Configuration in SAP HCM for S/4HANA course covers PCRs, payroll initiation, wage type valuation, absence valuation, time wage type selection, factoring, cumulation wage types, retroactive accounting and average processing. SAP's payroll process guidance also covers payroll control records, simulation, payroll execution, payroll logs and subsequent accounting/payment activities. ■cite■turn0search6■turn0search1■turn0search3■
